# PhD POSITION IN POLITICAL SCIENCE & EUROPEAN LAW

Fellowship Call for Application

DEADLINE: July 3rd, 2022 – 17.00 CET

EARLY-STAGE RESEARCHER 8

Technocratic actors as ‘teachers’ of the rule of law:  
EU technical assistance, capacity-building  
and other pathways

Doctoral Fellowships are funded as part of a European Joint Doctorate supported by the European Commission's Marie Skłodowska-Curie Action.

## RESEARCH PROJECT

---

### ENVIRONMENT

---

This 3-Year-long doctoral fellowship is offered as part of a specific collective project within a multiannual international research effort on **Globalisation, Europe, and Multilateralism (GEM)**. This project (2022-2026), coordinated by the Institut d'études européennes (IEE) at the Université libre de Bruxelles (ULB), will assess the EU's capacity to act given the challenges facing **Democratic Institutions**, the rise of **Alternative MOdels** and mounting **Normative Dissensus (DIAMOND)**.

**GEM-DIAMOND** is a *Marie Skłodowska Curie Action - Doctoral Network* (MSCA-DN) involving 7 European and 4 international degree-awarding Higher Education Institutes (HEIs) alongside 6 well-established non-academic institutions. The project will hire and train 16 doctoral fellows to help address knowledge gaps associated with the growing normative tensions undermining multilateral and democratic practice – for further information see [www.gem-diamond.eu](http://www.gem-diamond.eu).

GEM-DIAMOND's overall research program will collectively tackle three shared knowledge gaps regarding contemporary strains on liberal democracy:

- **Objective 1:** Conceptualising the seemingly mounting dissensus surrounding liberal democracy.
- **Objective 2:** Unpacking the ambiguous role different actors can play as both champions and challengers of liberal democratic norms, values and practices.
- **Objective 3:** Assessing the impact of increased dissensus regarding liberal democracy on the policy instruments of the EU and its capacity to act in its internal and external policies.

Early-Stage Researcher n°8 (**ESR8**) is part of **GEM-DIAMOND's** 2<sup>nd</sup> Work Package (WP2) entitled '*Unpacking actors of dissensus*'. WP2 includes 4 individual doctoral projects that will help map the network of actors of dissensus as each one will work on a specific type of actor.

Both individually and collectively, the 4 PhD fellows associated with WP2 will help with the *mapping of the main actor networks* that play a role in contemporary dissensus regarding liberal democracy in Europe. Centred on the multi-level European polity, WP2 will identify the challengers seeking to transform democratic and rule of law practice, be it either to undermine existing liberal democratic regimes in an anti-liberal perspective or to recast them through new forms of participation and deliberation. The four PhD fellows involved will adopt an actor-centric approach, with each Researcher focusing on a specific type of actor. Ultimately, WP2 will **map and analyse the legal, political, societal, and technocratic actor networks active within the EU institutions and its Member State** driving dissensus in the EU.

## INDIVIDUAL RESEARCH PROJECT (IRP)

---

Entitled '*Technocratic actors as 'teachers' of the rule of law: EU technical assistance, capacity-building and other socialisation pathways*' the individual research project of **ESR8** is in the fields of **Political Science** and **European Law**

**ESR8** will focus on technocratic actors. This IRP will explore the EU as an external policy actor functioning as a 'teacher' of the rule of law at the international level and the capacity of its instruments to respond to mounting local dissensus in target countries. It will explore such instruments as technical assistance, capacity-building and other socialisation pathways to promoting the rule of law mobilised by the EU. It will do this across two or three different regulatory areas (for example environment, finance, human rights, trade, labor right, intellectual property, etc.) where the EU acts as a relevant international actor on the world stage. The IRP will involve a comparative analysis seeking to flesh out the general modalities, conditions and practices of the export of concepts and practices of rule of law.

**As part of their application, candidates will be asked to submit a personal interpretation of the research project in the form a specific project proposal of 2-3 pages, including a research question, a theoretical framework, a methodological strategy, and a justification for the two or three regulatory areas selected.**
